Oradea | +40774688755

costelasdenis@gmail.com | <https://denosg.github.io/>

A highly adaptable and disciplined individual, I am passionate about leveraging my technical skills to contribute positively to both my team and the community. With a love for programming deeply ingrained in my work ethic, I find fulfillment in not only excelling in my own tasks but also in assisting and mentoring colleagues to achieve their goals. Known for my sociable and charismatic nature, I thrive in collaborative environments where teamwork and innovation flourish. Eager to continue making meaningful contributions and fostering growth within any project I work in.

EXPERIENCE

Software Developer

Jul 2023 - Present

Monad Systems, Oradea

We're a company that focuses on establishing long-term relationships with customers.

- Played a pivotal role in developing a healthcare mobile application for a hospital client, focusing on front-end UI/UX design and functionality enhancements.
- Engineered custom UI screens and views for diverse user roles and use cases, ensuring an intuitive user experience.
- Improved the decryption/encryption process, reducing data loss from 25% to 0%, enhancing data security.
- Established a development environment and separated development from production environments for operational stability.
- Implemented Google Cloud Functions and Scheduled Cloud Functions using Node.JS, enhancing backend functionality.
- Actively participated in Scrum sprints, conducted code reviews, and contributed to documentation efforts.
- Leveraged version control practices to manage code changes and releases effectively.
- Implemented Test-Driven Development (TDD) methodologies to create a caching system, optimizing data retrieval efficiency and reducing server reading costs by 50%.
- Provided assistance to colleagues, fostering collaboration and enhancing team productivity.
